Journal of Computers

Volume 11, Number 6, November 2016

- Emotion Model Implementation for Parameterized Facial Animation in Human-Robot-Interaction** **439**
Steffen Wittig, Uwe Kloos, Matthias R ätsch
- An Improvement of User Authentication Framework for Cloud Computing** **446**
Jongho Mun, Jiye Kim, Dongho Won
- Knowledge Based Course Planning System for EE Students at UAE University** **455**
Mohammad Shakeel Laghari
- Ubiquitous Crowdsourcing Model for Location Recommender System** **463**
Saroj Kaushik, Sunita Tiwari, Chhavi Agarwal, and Aakash Goel
- Threshold Based Segmentation Technique for Mass Detection in Mammography** **472**
Aziz Makandar, Bhagirathi Halalli
- A Stochastic Model for the Size of Worm Origin** **479**
Tala Tafazzoli, Babak Sadeghiyan
- Discovery and Identification of an Application for Inter-Application Communication on a Home Network Using UPnP** **488**
Kalaiselvi Arunachalam, Gopinath Ganapathy
- Wide Area Ontology Integration Scheme for Reasoning Agents in Surveillance Networks** **497**
Soomi Yang, Heejung Byun

Research on Cassandra Data Compaction Strategies for Time-Series Data	504
Bai Lu, Yang Xiaohui	
E-Health Grid Network Topology Based on Referral Hospital Clustering in Indonesia	513
Ummi Azizah Rachmawati, Sri Chusri Haryanti, Nur Aini	
Ray-Scaling Operations for Deformation of Soft Objects	520
Pi-Chung Hsu	
Designing DNA Microarrays with Ant Colony Optimization	528
Nikola Ivkovic, Marin Golub, Domagoj Jakobovic
