Journal of Software

Volume 13, Number 9, September 2018

- Real-Time Pen Input System for Writing Utilizing Stereo Vision** **1000**
Fadi Imad, Sharifah Mumtazah Syed Ahmad, Shaiful Hashim, Khairulmizam Samsudin, Marwan Ali
- Applying Computational Intelligence Techniques to QoS Time Series Forecasting in Services Computing** **1010**
Yang Syu, Yong-Yi FanJiang
- Research on Clustering and Classification for the Green Edition of Southern Weekend** **1027**
Sheqi Zhang, Xiangmei Dou
- Privacy-Preserving Group Matching Protocol** **1037**
Takuya Ibaraki, Yoshifumi Manabe
- Design and Implementation of A Cross-Database Query Tool on Multi-Source Databases** **1042**
LiangLiang, Zhu Guangxin, Li Yuqian, Hu Junjun
- Distortion Free Database Watermarking System Based on Intelligent Mechanism for Content Integrity and Ownership Control** **1053**
Saad M. Darwish, Hosam A. Selim, Mohamed M. Elsherbiny
- Handwritten Digit Recognition by Elastic Matching** **1067**
Sagnik Majumder, C. von der Malsburg, Aashish Richhariya, Surekha Bhanot
- Designing A Novel Hybrid Algorithm for QR-Code Images Encryption and Steganography** **1075**
Mohammad Soltani, Amid Khatibi Bardsiri

Forex Trading Robot with Technical and Fundamental Analysis Luciana Abe dnego, Cecilia Esti Nugraheni, Irvan Rinaldy	1089
A Model Based Testing Approach for Java Bytecode Programs Safaa Achour, Mohammed Benattou	1098
Soft Switching Model Predictive Control with An Increase in the Security of Calculations and Information Hamidreza Iranmanesh, Ahmad Afshar	1115
Dynamic Models for Entity Trajectory Prediction Using Deep Learning Dhanya Raghu, Apoorva K H, Anjana Anil Kumar, S Natarajan	1127
