## Volume 13, Number 10, October 2018

- Comparative Assessment of Static Analysis Tools for Software Vulnerability** **1136**  
Peter Miele, Mohammed Alquwaisem, Dae-Kyoo Kim
- Image Inpainting Based on Sparse Representation with Histogram Dictionary** **1145**  
Qiaoqiao Li, Guoyue Chen, Xingguo Zhang, Kazuki Saruta, Yuki Terata
- Auto-construction for Distributed Storage System Reusing Used Personal Computers** **1156**  
Toshiya Kawato, Shin-ichi Motomura, Masayuki Higashino, Takao Kawamura
- Research on Optimization of Intelligent Warehousing Business of State Grid Based on Genetic Algorithm** **1164**  
Xin Jin
- Computer-Aided Design of Developable Surfaces: Designing with Developable Surfaces** **1171**  
Francisco Perez-Arribas, Leonardo Fernandez-Jambrina
- Investigating the Relationship between Electronic Commerce, Innovation and Technology with Customer Satisfaction** **1177**  
Elham Yari
- Solving Location Problem of Distribution Center Based on Hybrid Particle Swarm Algorithm** **1185**  
Can Gao, Yumei Song, Jiajie Shen, Yuanyuan Li

<b>A Design with Mobile Agent Architecture for Refactoring A Monolithic Service into Microservices</b>	<b>1192</b>
Masayuki Higashino, Toshiya Kawato, Takao Kawamura	
<b>Compositional Schedulability Analysis of Multicore Modular Avionic Architectures</b>	<b>1202</b>
Jalil Boudjadar	
<b>Semantic Crime Investigation System</b>	<b>1216</b>
Eman K. Elsayed, Wafaa Ghonaim, Eman Zeaar	
<b>An Intelligent Mobile System to Predict Blood Sugar Level for Gestational Diabetes Patients Using Machine Learning</b>	<b>1227</b>
