

Contents

Journal of Computers

Volume 13, Number 10, October 2018

- Comparative Assessment of Static Analysis Tools for Software Vulnerability** **1136**
Peter Miele, Mohammed Alquwaisem, Dae-Kyoo Kim
- Image Inpainting Based on Sparse Representation with Histogram Dictionary** **1145**
Qiaoqiao Li, Guoyue Chen, Xingguo Zhang, Kazuki Saruta, Yuki Terata
- Auto-construction for Distributed Storage System Reusing Used Personal Computers** **1156**
Toshiya Kawato, Shin-ichi Motomura, Masayuki Higashino, Takao Kawamura
- Research on Optimization of Intelligent Warehousing Business of State Grid Based on Genetic Algorithm** **1164**
Xin Jin
- Computer-Aided Design of Developable Surfaces: Designing with Developable Surfaces** **1171**
Francisco Perez-Arribas, Leonardo Fernandez-Jambrina
- Investigating the Relationship between Electronic Commerce, Innovation and Technology with Customer Satisfaction** **1177**
Elham Yari
- Solving Location Problem of Distribution Center Based on Hybrid Particle Swarm Algorithm** **1185**
Can Gao, Yumei Song, Jiajie Shen, Yuanyuan Li

- A Design with Mobile Agent Architecture for Refactoring A Monolithic Service into Microservices** **1192**
Masayuki Higashino, Toshiya Kawato, Takao Kawamura
- Compositional Schedulability Analysis of Multicore Modular Avionic Architectures** **1202**
Jalil Boudjadar
- Semantic Crime Investigation System** **1216**
Eman K. Elsayed, Wafaa Ghonaim, Eman Zeaar
- An Intelligent Mobile System to Predict Blood Sugar Level for Gestational Diabetes Patients Using Machine Learning** **1227**
Shiyu Sara Huang, Chou in Luk, Liping Zhou, Yu Sun
