## Volume 14, Number 2, February 2019

- On Clustering Algorithms: Applications in Word-Embedding Documents** **88**  
Israel Mendonça, Antoine Trounev, Akira Fukuda, Kazuaki Murakami
- Bag-of-Words and Region-Based Feature Representations in Object Categorization: A Comparative Study** **93**  
Chih-Fong Tsai, Ya-Han Hu, Ming-Chang Wang, Kang Ernest Liu
- Hand Gesture Recognition Based on Faster-RCNN Deep Learning** **101**  
Xiaoguang Yu, Yafei Yuan
- Discovering Software Vulnerabilities Based on Fuzz Testing** **111**  
Yu-Ming Chung, Chihli Hung
- The Investigation of Icon Concreteness with and without Text Describe for Retirees** **119**  
Kleddao Satcharoen
- A Systematic Model of Big Data Analytics for Clustering Browsing Records into Sessions Based on Web Log Data** **125**  
Chung Yung, Chia-Ching Chen, Yu-Lan Yuan, Ching Li
- A Novel Personalized Recommendation Algorithm for the Metrology Industry with Massive Sparse Data** **134**  
PeiQiang Zheng, JinXing Lin, Kaizhi Chen
- Diversification and Coarse-Grained Metaheuristics** **144**  
Nadia Abd-Alsabour
