

# Journal of Computers

ISSN 1796-203X

Volume 5, Number 8, August 2010

## Contents

### Special Issue: Recent Advances in Computer Science and Engineering

Guest Editors: Dan Zhang and Bale Reddy

---

Guest Editorial 1143  
*Dan Zhang and Bale Reddy*

---

#### SPECIAL ISSUE PAPERS

An Effective Adaptive Multi-objective Particle Swarm for Multimodal Constrained Function Optimization 1144  
*Yongquan Zhou and Shengyu Pei*

Research on Formal Verification Technique for Aircraft Safety-Critical Software 1152  
*Yongfeng Yin, Bin Liu, and Duo Su*

Determination of Optimal SVM Parameters by Using GA/PSO 1160  
*Yuan Ren and Guangchen Bai*

Water Resources Allocation Effect Evaluation Based on Chaotic Neural Network Model 1169  
*Xianfeng Huang and Guohua Fang*

A Large-Scale Device Collaboration Performance Evaluation Approach Based-on Dynamics 1177  
*Xiaohui Rong, Feng Chen, Pan Deng, and Shilong Ma*

Annotating Web Image using Parallel Graph Bipartition and Word Clustering 1185  
*Zheng Liu*

Power Aware Job Scheduling in Multi-Processor System with Service Level Agreements Constraints 1193  
*Congfeng Jiang, Jian Wan, Xindong You, and Yinghui Zhao*

Transaction in Large-scale Device Collaborative System 1204  
*Feng Chen, Xiaohui Rong, Pan Deng, and Shilong Ma*

The Entropy Model of Fractal Supply Chain Network System Based on Fuzzy AHP 1213  
*Xilong Qu and Zhongxiao Hao*

A Useful Anomaly Intrusion Detection Method Using Variable-length Patterns and Average Hamming Distance 1219  
*Ye Du, Ruhui Zhang, and Youyan Guo*

---

#### REGULAR PAPERS

Empirical Study on the Effect of Trade Protection on Chinese Textiles Exporting based on Trade Gravity Model 1227  
*Liping Wang*

---

---

Research on the Price Risk Management in China Agricultural Products <i>Herui Cui</i>	1235
Simulation of Transaction Behavior and Price Volatility in Chinese Soybean Futures Market Using MVAR Model <i>Yu Zhao and Chunjie Qi</i>	1240
Dynamic Investment under Asymmetric Information <i>Ruxing Xu, Dan Wu, and Shenghong Li</i>	1248
Visual Mental Imagery Memory Model Based on Weighted Directed Graph <i>Hui Wang, Hongchang Ke, Hongwei Zhao, and Kaiyu Liang</i>	1256
Applying Rough Set Theory to Evaluate Network Marketing Performance of China's Agricultural Products <i>Hua Jiang and Junhu Ruan</i>	1264
Applying Principal Component Analysis and Unascertained Method for the Analysis of Construction Accident Risk <i>Huawang Shi, Wanqing Li, and Yong Deng</i>	1273
The Productivity of Listed Companies of Computers and Related Equipment Manufacturing Industry <i>Malin Song</i>	1281
Grounding Grid Corrosion Diagnosis and Uncertainly Analysis of Branches <i>Shuqi Wang, Jian Liu, Sen Wang, and Zhizhong Li</i>	1289
